HSE INTERNATIONAL STUDENT ASSOCIATION

Moscow, 2020

WHAT HSE INTERNATIONAL STUDENT ASSOCIATION IS?

Our student organization was created by people who came from different countries with different interests and different goals. We faced various problems and situations as “compatriots from abroad” or “foreigners”, and now we want to share experience as students and as part of student’s council to help new students to overcome obstacles that may occur at the beginning of life in HSE University, or even get around these obstacles.

The long name hides short and clear goals - to help international students to settle in Moscow, to understand how the Vyshka works, and most importantly - to show you the prospects for which you came here. We went through all this, now we just want to help you!

WHAT ARE WE DOING AT ISA?

Our main tasks:

- ✓ protect the rights of foreign students, accept applications and work with them;
- ✓ notify you of important news and innovations;
- ✓ publish information about events held;
- ✓ help you implement your ideas and projects.

HOW CAN I JOIN TO ISA?

It is a Student Council chosen by international students of Higher School of Economics (HSE), aimed at protecting the interests and rights of international students of HSE.

Every year you can become a part of ISA. Elections are provided every winter (the end of 2nd module).

ISA ACTIVITY

- We represent a large community of students who come to study at the Higher School of Economics from different countries. Therefore, it is important for us to unite cultures and peoples. In recent years, our association has organized a large event such as a Parade of Nationalities.
- Every year we have a stand at the HSE Day, near which we are always glad to see you.

YOUR FUTURE CAREER

- Among other things, we are also concerned about your post-graduation activities.
- Also, last year there were many seminars, lectures under the leadership of our committee about career, assistance in learning Russian.
- We help students in difficult situations such as COVID, distance learning, health insurance and dormitory problems.
